

Specialty Retail Point of Sale Solution

“One major pain point I experienced with other POS systems prior to Revel was the cost in resources. I used to have staff that would spend hours pulling spreadsheets together to get the information that we needed. To eliminate that cost, have real time data, and know that the integrity of the data is free of human error was a key deciding factor for me.

A Powerful Platform for Your Retail Establishment

Revel is the leading feature-rich platform for all retail establishment types, integrating all purchasing channels into your Point of Sale. Revel's ecosystem is designed to help you increase revenue, improve efficiency, and delight customers; it makes operating your business easier and the customer checkout experience seamless.

Process orders faster than hardware intensive, server-based legacy POS systems with Revel's cloud-based infrastructure. Manage high volume sales without slowdown, all while ensuring customer data security and maintaining PCI compliance.

Fully customize your Point of Sale and platform with countless direct and third party integrations for optimal performance. Understand what's happening in your business with Revel's real-time reporting, where you can analyze operational performance to guide strategic business-boosting decisions

What Sets Revel Apart

Security

Process payments securely using validated point-to-point encryption (P2PE). Built by a Compliance expert, Revel's ecosystem is at the forefront of payment security standards, ensuring that business and customer data are fully protected at all times.

Always On Mode

Keep business flowing smoothly with Revel's true hybrid cloud / local architecture. This unique configuration allows for uninterrupted performance during internet slowdown or complete service disruption.

Inventory Tracking

Track your inventory in real-time so you know what to reorder and when. Revel updates inventory count for you, sends automatic stock alerts and generates purchase orders so you're always stocked.

Customer Relationship Management

Gain valuable insight about your customers, from their favorite menu items, order history, and preferences all through CRM, helping you better prepare to meet their needs in the future. Automatically pull up customer profiles before ringing up orders over the phone with Revel's Caller ID integration.

Employee Management

Create team schedules and designate specific user permissions within the management console. With labor forecasting reports, identify peak business hours and schedule to meet demand more accurately. Automatically process payroll when employees use the POS to clock in and out.

Intelligent Reporting

Maintain total control of your business with Revel's full suite of intelligent reports. From sales summaries to product mix reports to labor, identify how your business is performing in real-time across all channels. Easily compare to past performance, so you can ensure you're staying on track.

Kiosks and Mobile Order Takers

Accelerate speed of service and enhance the customer experience with labor-saving technology that helps cut lines and reduce wait time. With Revel, you can delight your customers by letting them place their own orders for quick checkout or by providing service from anywhere in the restaurant.

Retail Establishments Supported by Revel iPad POS

Coffee Shop

Simplify the daily grind with Revel's all-in-one solution. Ring up customers quickly, easily, and accurately with custom combos and modifiers. Ingredient-level inventory makes sure you know what to restock and when.

Pizza

Provide a top-notch pizza night, regardless of whether your customers are dining in, taking out, or ordering delivery. Stay ahead of the rush by easily generating orders when repeat customers visit or call in, and ensure food arrives hot with robust delivery management tools.

Specialty Retail

Increase efficiency and maximize customer satisfaction with integrated food-safe scales and multiple tare values, ensuring delightfully quick service. Mix in features like loyalty programs and gift cards to keep customers coming back.

Stadium and Events

Keep fans moving through merchandise quickly and concession lines even during fast-paced, high-volume periods with lightening fast processing and Revel's Always On Mode. Maintain total control of the entire operation with critical, up-to-the-minute reporting.

Food Truck

Hit the road and give your customers the best experience, even on the go. Keep tabs on your mobile operation with ingredient-level inventory and real-time reporting. Easily update customers about your current and future whereabouts with Revel's social media integration.

Deli

Cater to heavy traffic quickly and efficiently. Display your mouth watering options with engaging digital menu displays. Make informed business decisions with ingredient-level inventory management and detailed real-time reporting insights.

Winery

Track your pours easily so you know what and when to restock. Ensure customers have the best tasting experience with CRM integration. Let customers continue their experience at home and meet wine-specific shipping regulations with the integrated Ship Compliant.

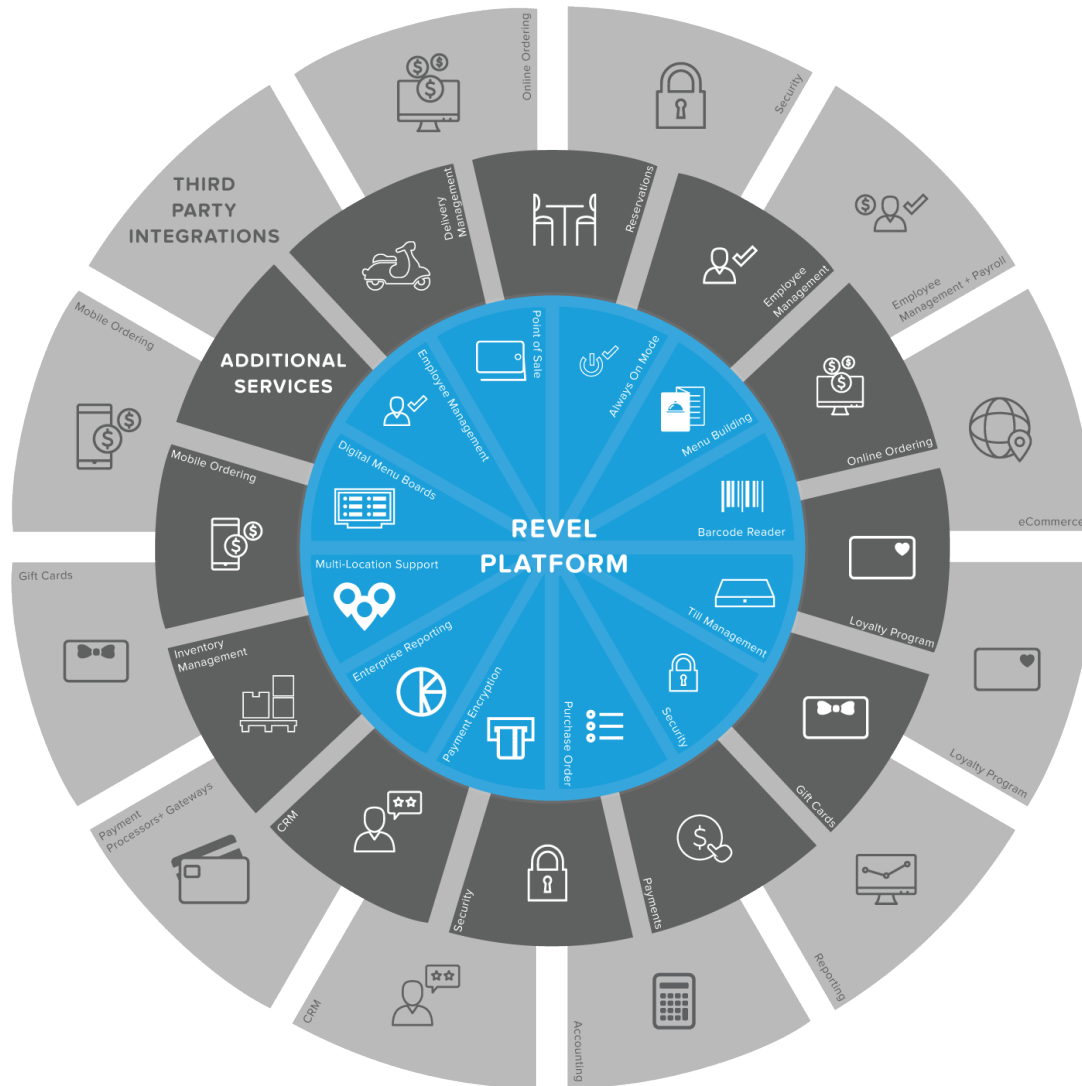

Convenience Store

Meet customer needs 24/7 while keeping track of every item in your store. Simplify inventory management with real-time inventory tracking and detailed product mix reports.

Drive-Thru

Speed business through your drive-thru with face-to-face video. Personalize the drive-thru experience and deliver a premium brand experience that customers will never forget.

A Feature-Rich Ecosystem Designed to Get Down to Business

Revel is the premiere choice for any retail establishment because it's more than just a Point of Sale; Revel is an enterprise-grade business management platform that offers owners and operators total control over all the moving parts of the operation.

No other point of sale matches the number of features or integrations of Revel's platform. From payments and eCommerce to CRM and employee management, Revel offers the tools you need and the partnership integrations you desire to run the business you want, as you see fit.

Why You Should Choose Revel & North Country Business Products

NCBP has partnered with Revel to offer you the most comprehensive end-to-end POS and platform available, providing the robust functionality you need to operate and monitor your retail establishment, while maintaining an intuitive interface that makes it easy to use for managers, employees, and customers alike.
