

PROTECTING YOUR BUSINESS

Our SmartTech Solution includes: Antivirus protection, Proactive monitoring, Endpoint management, Patching, Asset Discovery and System inventory to ensure compliance and protection of your POS systems.

Endpoint Mangement

- Reduces downtime

Monitoring

- Resolve issues before they escalate

Automation

- Automatically execute known solutions to common problems

Patching

- Keep systems secure and devices up to date
- Prevent known bad patches from being installed & remotely install patches for Windows and other software

Proactive Support

- Auto remediate issues after they happen with scripting

Antivirus powered by Bitdefender Gravity Zone

- Stable and extremely effective anti-virus protection

Multi-Layer Ransomware protection notifies us and prevents loss of data.

Automatic Upgrades protect against the most advanced cyber threats.

Zero System slowdowns ensure instant reaction to malware without slowing your system processing.
